

HALF | HUMAN

Half Human Curved Treadmill

Offering complete workout control for maximum results, the Half Human curved non-motorised treadmill is powered by you and your energy. With no motor or speed limits, it lets you train at your own pace and run as fast as you want to. The curved shape of the deck enables you to experience a more natural run and work out in an ergonomic style for better, faster results. To analyse performance and monitor your progress, there is a clear, user-friendly LCD screen providing live feedback on crucial workout data, whilst 4 levels of resistance enable you to transition from running to sled push. This commercial-grade, athlete-powered piece of equipment has a sturdy, reliable frame, and a multi-grip handlebar for greater versatility. It features a selection of 7 challenging programmes and lets you keep entertainment at your fingertips thanks to an integrated smart device holder.
